

April 6th, 2022

Dear Friends,

I hope you are doing well.

On behalf of the Board of the European Association for Cancer Education I am very sorry to inform you, that due to pandemic SARS-CoV-2 situation and war in the adjacent, friendly Ukraine, we are forced to postpone our Scientific Meeting planned from 4th till 6th May 2022 in Krakow. Both factors have strong impact on the current situation, discouraging many potential participants from in person meeting and focusing the attention. That influences not only the frequency, but also the structure of the scientific program making it not attractive enough to propose.

We are also very sorry to postpone the Leadership in Cancer Education Workshop planned in cooperation with AACE as preceeding event for the same reasons.

Despite of aforementioned difficulties we remain active as the association, planning to organise the meeting in autumn 2022. We consider the new date to be far enough from the International Cancer Education Conference planned for October in College Park, Maryland, United States.

I apologize for the inconvenience to those persons who have already planned the trip and stay in Krakow. I believe we can meet each other soon in more favorable circumstances, when the situation improves and our minds will be free to get focused on progress in cancer education.

Please stay in touch. We will provide the informations concerning nearest meeting via newsletters and on our web site.

Sincerely

Radoslaw Tarkowski MD
EACE President
